Dr.

Course/Module description:

Conversation is the primordial site of language use. In this course we explore the relation between language structure and conversation structure while focusing on grammatical, interactional, and social features.

Course/Module aims:

The goal of the course is to explore the inherent relation between language and conversation and to conduct original research on a phenomenon that embodies this relation

Learning outcomes - On successful completion of this module, students should be able to:

- 1. To apply conversation-analytic transcription methods to recorded excerpts of conversation*
- 2. To analyze linguistic phenomena in conversation*

Attendance requirements(%):

100

Teaching arrangement and method of instruction: Lectures, discussions, presentations, data sessions

Course/Module Content:

- 1. Conversation as a social phenomenon; conversation as ritual; conversation as procedure*
- 2. Representing conversation: transcription methods*
- 3. Prosody*
- 4. Turn-taking*
- 5. Actions and preference*
- 6. Overlapping*
