Syllabus

Between cyber wars and internet governance - 54743

Last update 19-07-2016

HU Credits: 2

Degree/Cycle: 2nd degree (Master)

Responsible Department: conflict management & resolution

Academic year: 0

Semester: 1st Semester

Teaching Languages: Hebrew

Campus: Mt. Scopus

Course/Module Coordinator: Dr. Efrat Daskal

Coordinator Email: Efrat.daskal@mail.huji.ac.il

Coordinator Office Hours: Monday 18:00-19:00

Teaching Staff:
Dr. Efrat Daskal
Course/Module description:
This course examines the conflicts and the compromises taking place "behind the scenes" in the field of internet governance. In this course the student will learn about the national and the international actors operating within the cyber space and about the political, social and technological struggles that shape and construct the cyberspace in which we live.

Course/Module aims:
A critical introduction to the research field of internet governance and its social, technological and political significance.

Learning outcomes - On successful completion of this module, students should be able to:
1. To describe the technological and political infrastructure of the internet
2. To Identify the national and international stakeholders taking part in constructing internet governance
3. To explain the political interests and dilemmas of the various stakeholders that take part in internet governance.
4. To analyze the theoretical aspects of internet governance
5. To suggest political and technological solution to various problems of internet governance.
6. To formulate research questions and research design in the field of internet governance.

Attendance requirements(%):
80% of the classes

Teaching arrangement and method of instruction: lecture

Course/Module Content:
A: Between technology and politics
