

The Hebrew University of Jerusalem

Syllabus

Morphology - 10823

Last update 05-09-2023

HU Credits: 2

Degree/Cycle: 1st degree (Bachelor)

Responsible Department: School of Language Sciences

Academic year: 0

Semester: 2nd Semester

Teaching Languages: Hebrew

Campus: Mt. Scopus

Course/Module Coordinator: Prof. Eran Cohen

Coordinator Email: cohen.eran@mail.huji.ac.il

Coordinator Office Hours: By appointment

Teaching Staff:

Prof Eran Cohen

Course/Module description:

The course covers basic concepts and questions in morphological analysis: morphemes and allomorphy, inflection and derivation, paradigms, and the interaction between morphology and other components and different levels of analysis in a linguistic system.

Course/Module aims:

The course teaches students to detect, describe, and analyze morphological patterns in a wide variety of languages, with special attention to Semitic morphology.

Learning outcomes - On successful completion of this module, students should be able to:

- * Detect morphological patterns in language data
- * Describe morphological phenomena in a wide variety of languages using appropriate linguistic terminology
- * Search and find relevant research materials in morphology
- * Distill from the literature descriptions of morphological phenomena

Attendance requirements(%):

100

Teaching arrangement and method of instruction: Class periods will include lectures and various exercise types.

Course/Module Content:

See course description

Required Reading:

Haspelmath, Martin and Andrea D. Sims. 2013. Understanding morphology. Routledge. 2nd edition.

Additional Reading Material:

Will be assigned during the semester

Grading Scheme:

Written / Oral / Practical Exam 40 %

*Submission assignments during the semester: Exercises / Essays / Audits / Reports
/ Forum / Simulation / others 60 %*
