Teaching Staff:

Dr. Hannelies Koloska

Course/Module description:

Death is an inescapable fact of life, and Islam likewise all religious and philosophical traditions offers ways and means to come to grips with it. This course introduces to the academic field of death studies in the study of religions. It will focus on concepts of death and dying in Islam, practices of burial and grief in past and present.

Course/Module aims:

Students will acquire basic literacy in one of the most important aspects of Muslim belief and rituals. They will learn how the human body, afterlife and death is conceptualized in Islamic texts and how rituals of burial, grief and acceptance of death developed.

Learning outcomes - On successful completion of this module, students should be able to:

- Students have basic knowledge of aspects of cultural, historical, political and religious considerations of death, dying and bereavement in Islam
- Students are familiarized with interdisciplinary perspectives around issues of death and dying
- Students cultivate analytical and reflective thought regarding Muslim attitudes toward death, dying and bereavement.
- Students demonstrate an understanding of the complexities involved in Muslim funeral experiences and death rituals.

Attendance requirements(%):

In case of absence the teacher has to be notified (not more than 2 times)

Teaching arrangement and method of instruction: - group/pair or individual works
