  Prof Milly Heyd
Course/Module description:
Topics for discussion: Various models of physicians depicted in the visual art. Doctor-patient relationships as portrayed by leading artists who were hospitalized. Projections of artists (such as: Van Gogh, Edvard Munch, Frida Kahlo, Eva Hesse) on the images of their doctors. Major developments in the history of hospitalization as seen in art history. The course will begin with the classical world and the image of Aesclepius.

Course/Module aims:

Learning outcomes - On successful completion of this module, students should be able to:
In the last class students' presentations of an analysis of an art image of their choice related to topics discussed in class. They can either create their own artistic work (painting, sculpture, photograph, etc.) or choose an image from art history. The idea is not to check their artistic abilities but their ability to address issues which were raised in class through their art work. Both choices lead to a final written text complementing their oral presentations.

Attendance requirements(%):
100%

Teaching arrangement and method of instruction: Interactive dynamic teaching, collaboration of students and professors in discussion. Powerpoints showing artworks. Last class: students' powerpoint presentations.

Course/Module Content:
See above, course description

Required Reading:
4. ז overlook Mosk, "מחלתו נמוכה" עמי, 576-577
