Course/Module description:
Narrative therapy is a respectful, non-blaming approach, which centers people as the experts in their lives. It views people as having beliefs, values, hopes and skills and sees those as tools for change. In the first part of the course we will focus on the philosophical and theoretical foundations of narrative therapy, and in the second part we will focus on the core therapeutic skills ('maps'): externalization, re-authoring, re-membering and definitional ceremonies.

Course/Module aims:
Basic introduction to narrative therapy
Provide students with basic theoretical and clinical skills

Learning outcomes - On successful completion of this module, students should be able to:
Be familiar with the philosophical and theoretical foundations of narrative therapy
Be familiar with the basic 'maps' of narrative therapy
