Campus: Mt. Scopus

Course/Module Coordinator: Yoel Elizur

Coordinator Email: yoel.elizur@mail.huji.ac.il

Coordinator Office Hours: Tue, 9-10

Teaching Staff:
Prof Yoel Elizur

Course/Module description:
The objective of this course is to provide to the first year practicum's students,
skills in assessment techniques, consultation and systemic-integrative therapy, and help them have a clear start in their entrance to the school system. We will learn about the organization of the school system, the position the educational psychologist within schools, and different levels of intervention as systems consultants with teachers and parents. The systemic-integrative techniques and concepts will enable you to create teamwork based on mutual goals, differentiate between content and process, and organize therapy plan according to systemic strategy. Special emphasis will be given to how to establish therapeutic alliance and do consultation and secondary prevention with teachers and parents. Grade will be given based on participating in class, oral presentations and papers.

Course/Module aims:
The objectives are: the creation of a systems consultant position with the school system, creating partnership with teachers and parents, and doing systems empirically-based intervention at the level of consultation and secondary prevention.

Learning outcomes - On successful completion of this module, students should be able to:
Create a systems intervention vis-a-vis an individual student
Built a working alliance and partnership with a teacher
Built a working alliance and partnership with parents
Explain their intervention strategy, based on case formulation
Apply a coordinated collaborative intervention
Explicate and provide an empirically-based rationale for the intervention
