

Syllabus

INTRODUCTION TO ARCHAEOZOOLOGY - 43583

Last update 05-09-2023

HU Credits: 2

Responsible Department: Archaeology & Ancient near East

Academic year: 0

Semester: 2nd Semester

Teaching Languages: Hebrew

Campus: Mt. Scopus

Course/Module Coordinator: Prof. Rivka Rabinovich

Coordinator Email: rivkar@mail.huji.ac.il

Coordinator Office Hours: Appointments

Teaching Staff:

Prof Rivka Rabinovich

Course/Module description:

Man and animal goes together ever since. Major processes regarding the

appearance of the hominins in our area, paleo-diet, modes of exploitations and preservation as reflected in the archaeological record will be discussed. The evidences of Domestication and the outcomes to the human society will be examined using the newest methods. Much focus will be in the southern Levant record, where many of the major changes took place. But a world view will be included as well

Course/Module aims:

To understand the complexity of the fauna originating from archaeological sites, as well as learning the required tools to cope with this complexity.

Learning outcomes - On successful completion of this module, students should be able to:

The outcome of the course is to know how faunal materials are analyzed and to be able to read and interpret reports. In addition to acquiring the basic knowledge about the major faunal groups found in archaeological contexts.

Attendance requirements(%):

100

Teaching arrangement and method of instruction: Lectures
Laboratory training

Course/Module Content:

Archaeozoology □ Introduction, research goals
Taxonomy □ general introduction, Invertebrates □ in the archaeological record
Fish - in the archaeological record
Amphibians and reptiles - in the archaeological record
Birds - in the archaeological record
Mammals- in the archaeological record
Paleoenvironmental methods □ based on fauna
Taphonomy □ methods and case studies
Domestication
Modes of complex farming as reflected in the archaeological record

Required Reading:

Andrews, P. 1990. Owls, Caves and Fossils. Natural History Museum Publications. Cromwell Road, London SW7 5BD.

Additional Reading Material:

Selected articles during the course

Grading Scheme:

Essay / Project / Final Assignment / Home Exam / Referat 60 %
Presentation / Poster Presentation / Lecture/ Seminar / Pro-seminar / Research proposal 40 %

Additional information:

3 obligatory laboratory classes in Givat Ram. The schedule will be fixed with the students.
