

Syllabus

Fishing in troubled waters: Intelligence and Espionage in the Japanese Empire - 46158

Last update 09-09-2021

HU Credits: 2

Responsible Department: Asian Studies

Academic year: 0

Semester: 2nd Semester

Teaching Languages: Hebrew

Campus: Mt. Scopus

Course/Module Coordinator: Prof. Danny Orbach

Coordinator Email: dannyorbach@gmail.com

Coordinator Office Hours: by email

Teaching Staff:

Dr. Danny Orbach

Course/Module description:

An in-depth examination of the history of prewar Japanese intelligence and espionage, along with discussion of key points and exploration of selected concepts in intelligence theory and history. We will also carry out a simulation of intelligence analysis in the context of the Japanese attack and US intelligence failure in Pearl Harbor.

Course/Module aims:

Learning outcomes - On successful completion of this module, students should be able to:

Understanding prewar Japanese intelligence, developing skills for in-depth discussion of key questions in intelligence history and theory.

In the addition, at the end of the course the students should be able to actively participate in discussions on intelligence, read sources in a critical way and write a high-quality research paper.

Attendance requirements(%):

100
