Syllabus

TREATMENT ACCORDING TO SELF-PSYCHOLOGY - 51540

Last update 05-08-2015

HU Credits: 2

Degree/Cycle: 2nd degree (Master)

Responsible Department: psychology

Academic year: 0

Semester: 2nd Semester

Teaching Languages: Hebrew

Campus: Mt. Scopus

Course/Module Coordinator: Eytan Bachar

Coordinator Email: bachare@mscc.huji.ac.il

Coordinator Office Hours: Sunday, 10:00-10:45

Teaching Staff:
  Prof Eytan Bachar
Course/Module description:
The course will delineate the development of self psychology from the psychoanalytic theories that preceded it. We will learn the special treatment stance of the therapist, and the special form of listening which is unique to this approach.

Course/Module aims:
To enable the students to apply the theory of Self Psychology in clinical treatment.

Learning outcomes - On successful completion of this module, students should be able to:
To identify the special contribution of self psychology over the psychoanalytic models which preceded it.
To characterize the special therapeutic stance of the therapist in self psychology.
To be able to suggest self psychologically oriented interventions.
To be able to analyze therapeutic sessions form a self psychological viewpoint.
To analyze transference from a self psychological viewpoint.

Attendance requirements(%):
80
