Course/Module description:

The second year workshop deals with a variety of theoretical and practical ideas in the realm of clinical psychology. The concept is to guide the developing professional clinical psychologist for students in the megama individually and as a group with the purpose of forming a professional identity. Aside from the theoretical aspects, the workshop deals with practical aspects by integrating issues with their practicum, via mutual learning about the various places, types of work done, and the flexibility that is required to deal with these points.

Course/Module aims:

To enable potential space for personal and group-professional identity as clinical psychologist.

Learning outcomes - On successful completion of this module, students should be able to:

experiential integrative thinking between practical and theoretical issues in clinical psychology.

Attendance requirements(%):

100
