Teaching Staff:

Prof Gisela Dachs

Course/Module description:

Marked by a strong tradition of print, the German media landscape has been transformed and challenged by the digital age, empowering the consumers to find new ways and venues in their communication behavior which impacts also the production of content. The course teaches the changing role of the media with an emphasis on an increasingly active audience.

Course/Module aims:

The course aims to transmit a comprehensive view of the relations between mainstream media and social networks in Germany. This includes the acquirement of knowledge about current affairs and debates that take place in an increasingly complex public sphere.

Learning outcomes - On successful completion of this module, students should be able to:

- To orient themselves within the current German media landscape and assess the role of major and minor media outlets as well as of the social networks.
- To read, analyze and discuss content in mainstream and social media.
- To evaluate the power relations between journalism and politics in the era of digital media.
- To gain insights into the production, reception and negotiation of journalistic content.
- To have a reflective view on German society through the critical discussion of its new media.

Attendance requirements(%):

100

*Teaching arrangement and method of instruction: The teaching combines theoretical and practical approaches. Each unit focuses on specific aspects relevant to the topic including study cases. The students introduce key terms of the debate*

---

to the class and focus on a weekly basis on a news items mirroring the digital change. Furthermore, guest lecturers from the field, practitioners as well as scholars, will be invited to give insights into their work.
