Teaching Staff:

Mr.

Course/Module description:

The course will explore current and future avenues of cooperation in security related matters between Germany and Israel. The methodology consists of online-preparation and a table-top exercise which puts students into the roles of top German and Israeli security professionals who coordinate security cooperation in the framework of German/Israeli government consultations.

Course/Module aims:

A general, short and pithy statement which informs a student about the subject matter, approach, breadth, and applicability of the course. A detailed list of subjects is not required in this section (2-4 sentences).

Learning outcomes - On successful completion of this module, students should be able to:

On completion of the course students will be able to:

- Explain the range and nature of issues which make up the realm of security cooperation between the two states
- demonstrate an understanding of both sides' interest in this cooperation
- plan and prepare arguments that stress the added benefits of such cooperation
- criticise and/or defend the more controversial projects of cooperation
- grasp the legal and societal limits and restrictions of security cooperation
- present their arguments in favor of security cooperation projects

Attendance requirements(%):

90.00%
