Course/Module description:

The course is designed to guide research students (MA and PhD) towards composing the research proposal for their MA thesis or PhD dissertation; it is also relevant for students working towards their research seminar paper. To this aim, the study plan includes acquisition of academic research tools for designing an independent-mentored study, selection of research topic and question, preliminary literature review, building mentorship relations, developing research strategy relevant to the research direction, accreditation in research ethics, and composition of a comprehensive and revised research proposal.

Course assignments are sequential, reflecting stages of research planning process and submission deadlines are "road marks" in the progress towards a comprehensive research proposal. Therefore, the research proposal required for completion of the course is an accumulation – and revision – of assignments submitted along the semester.

Course/Module aims:

Course is intended to guide research students (MA and PhD) towards composing the research proposal for their MA thesis or PhD dissertation. Specific goals are: acquisition of academic research tools for designing an independent-mentored study, selection of research topic and question, preliminary literature review, building mentorship relations, developing research strategy relevant to the research direction, accreditation in research ethics, and composition of a comprehensive and revised research proposal.

Learning outcomes - On successful completion of this module, students should be able to:

- Comprehensive, even if preliminary, research proposal for MA thesis or PhD dissertation;
- Recruitment of faculty mentor;
- Receipt of CITI ethics in research certificate.

Attendance requirements(%):

Compulsory-elective; graded.

Teaching arrangement and method of instruction: Course combines lectures, exercises, discussions, and student presentations, along with one-on-one meetings,

on-line certification and...plenty of writing and rewriting of the proposal.

Course/Module Content:

Variety of topics that shall guide research students (MA and PhD) towards composing the research proposal for their MA thesis or PhD dissertation. Among the topics are: What is an independent-mentored research? Developing criteria for topic selection; Preparing for the literature review; Selection of research question, and relevant research strategy; Planning the process of research and writing; Student presentations of their work.
