Syllabus

TROPICAL AND EMERGING ZOONOSES - 65908

Last update 08-03-2019

HU Credits: 2

<u>Degree/Cycle:</u> 2nd degree (Master)

Responsible Department: Veterinary Public Health

Academic year: 0

Semester: 2nd Semester

<u>Teaching Languages:</u> Hebrew

Campus: Rehovot

Course/Module Coordinator: Dr. Nir Rudoler, Dr Tsvi Salant

<u>Coordinator Email: nir.rudoler@mail.huji.ac.il</u>

Coordinator Office Hours:

Teaching Staff:

Dr. Nir Rudoler Dr.

Course/Module description:

Emerging zoonotic diseases, description of factors responsible for their emergence

Course/Module aims:

to be able to integrate presenting signs of infectious and parasitic zoonotic diseases with aetiological differentials in different global regions, have knowledge in epidemiological disease trends and understand their drivers. Lastly, the structure of prevention and control strategies for their eradication

<u>Learning outcomes - On successful completion of this module, students should be able to:</u>

Description of the pathogens, the factors and the consequences in which these pathogens emerge.

<u>Attendance requirements(%):</u> compulsory

Teaching arrangement and method of instruction: Frontal lectures using presentations, discussions in class and case studies for practice

Course/Module Content:
vector-borne emerging viral zoonoses
Viral hemorrhagic fevers
Avian influenza virus
emerging paramyxoviruses
emerging coronaviruses
Bioterror
Leishmania and other neglected tropical zoonoses

Required Reading:

WHO web site, CDC web site, Promed and additional literature given in class

Additional Reading Material:

Reading material sent by mail and recommended in class

Course/Module evaluation:
End of year written/oral examination 30 %
Presentation 40 %
Participation in Tutorials 30 %
Project work 0 %
Assignments 0 %
Reports 0 %
Research project 0 %
Quizzes 0 %
Other 0 %
