PRACTICAL WORKSHOP IN CROP MANAGEMENT - 73936

Last update 06-11-2018

HU Credits: 3

Degree/Cycle: 2nd degree (Master)

Responsible Department: Field and Vegetable Crops-International Prog.

Academic year: 0

Semester: 2nd Semester

Teaching Languages: English

Campus: Rehovot

Course/Module Coordinator: Dr. Etan Pressman

Coordinator Email: pressman@agri.gov.il

Coordinator Office Hours: During Course hours

Teaching Staff:

Dr. Etan Pressman,
Mr. martin gitonga,
Dr. Naama Teboul

Course/Module description:

A 'hand on' course in the faculty farm in which students will experience growing several different vegetables and field crops in two seasons.

Course/Module aims:

To expose young students to vegetable production techniques. Practical knowledge and field experience obtained in the workshop will likely provide a stronger basis for understanding further courses in plant biology and agriculture.

Learning outcomes - On successful completion of this module, students should be able to:

Acknowledge various methods of vegetable production. Distinguish between winter and summer crops. Classifying the crops by their edible parts: roots, stems, leaves inflorescences and fruits.

Attendance requirements(%):

90

Teaching arrangement and method of instruction: Practical guidance in the farm combined with short lectures and explanations

Course/Module Content:

Principles of vegetable crop production, regarding the edible parts of the plant: root, leaves, stems, inflorescences and fruits. Focusing on fertilization, irrigation, pests and diseases, harvest time and physiological disorders.

Required Reading:

Non
