Teaching Staff:

Ms. Moran Zerahia,  
Ms. ARIELA KATAYEV

Course/Module description:

The clinical rotation will focus on patients with disease and/or injuries that are common in the clinical field. Add to that, there will be emphasis on learning skills relevant to the field.

Course/Module aims:

The student will acquire knowledge and tools to implement nursing intervention according to the nursing process (assessment, planning, implementing and evaluation) in treating the healthy and sick patient in the clinical field. There will be emphasis on communication skills, decision making process and coping with health problems.

Learning outcomes - On successful completion of this module, students should be able to:

-

Attendance requirements(%):

100
