Coordinator Office Hours: 1200-1400 ימי שני

Teaching Staff:
Avraham Zini
Prof Jonathan Mann
Dr. Harold Sgan-Cohen
Course/Module description:
The clinic will involve preventive dentistry as an integral component of pediatric dental care.

Course/Module aims:
To develop in the student the appropriate understanding and skill to prepare a preventive dental treatment plan and its implementation among children.

Learning outcomes - On successful completion of this module, students should be able to:
- Collect relevant preventive clinical and behavioral data.
- Measure a preventive component, adapted to the individual needs of each patient, based on risk and motivation levels and evidence based dentistry.
- Describe the clinical components.
- Recommend an appropriate individual preventive treatment plan.

Attendance requirements(%):
80%

Teaching arrangement and method of instruction: Clinical Practice

Course/Module Content:
- Oral hygiene instruction and brushing skills
- Prevention as an integral part of treatment
- Assessment of individual caries risk and appropriate prevention
- Motivational interview
- Improvement of appropriate dental knowledge
- Topical fluoride application

Required Reading:

Additional Reading Material:
None
